#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, and 13-18 have been rejected under 35 U.S.C. 102(b) as being anticipated by Blaicher, 1422819.

Blaicher discloses the claimed ring but fails to disclose the method used to make the inner and outer rings. The method limitations are given weight with regard to the structure left by the manufacturing process. In this case, the structure of the Blaicher's ring is identical to the final structure of applicant's ring, which was made by casting from wax by the lost wax process. Therefore, Blaicher's ring structurally meets all the limitations set forth in the claims.

3. Claims 1-6, 8, 13-18 have been rejected under 35 U.S.C. 102(b) as being anticipated by Gittler, 2128644.

Gittler discloses the claimed ring but fails to disclose the method used to make the inner and outer rings. The method limitations are given weight with regard to the final structure left by the manufacturing process. In this case, the structure of the Gittler's ring is identical to the structure of applicant's ring, which was made by casting from wax by the lost wax process. Therefore, Gittler's ring structurally meets all the limitations set forth in the claims.

***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
